

Our future can only be shaped successfully if we act responsibly in the present!

DOUBLE IMPACT

The production of our CLIMATUBE® zip, easy and basic polyethylene pipe insulation helps to reduce plastic waste and conserve natural resources without compromising quality!

double contribution

= to climate protection

By insulating your pipe system with our products, you make an important contribution to environmental protection by saving fuel.

In this way, you too can reduce CO₂ emissions, save money and at the same do your bit in the fight against global warming!

CLiMATUBE® easy

SUSTAINABLE INSULATION CONCEPT

Time-saving pipe insulation solution with self-adhesive closure system.

- Polyethylene pipe insulation based on recycled raw materials
- Scope of application: heating and hot water pipes
- Excellent insulating properties: thermal conductivity of 0.040 W/mK at 40 °C mean temperature
- Heating energy losses reduced by up to 80%
- Fire class: E (normal flammability)
- Suitable for pipe temperatures from 0 °C to +100 °C
