

Our future can only be shaped successfully if we act responsibly in the present!

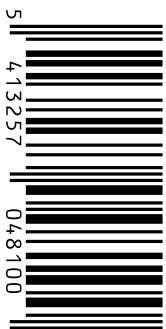

CLIMATUBE®
flex

*Flexible insulation
made of rubber*

COST CONSCIOUS
AND ENVIRONMENTALLY
FRIENDLY

By insulating your pipe system with CLIMATUBE® flex, you make an important contribution to environmental protection by saving fuel. In this way, you too can reduce CO₂ emissions, save money and at the same do your bit in the fight against global warming!

CLIMATUBE® flex

FLEXIBLE INSULATION WITH SELF-ADHESIVE CLOSURE SYSTEM

- Rubber pipe insulation
- Flexible and easy to bend
- Scope of application: Heating and hot water pipes
- Excellent insulating properties: thermal conductivity of 0.038 W/mK at 40 °C mean temperature
- Heating energy losses reduced by up to ca. 76 %
- Fire class: B₁s3d0 (flame resistant)
- Usable for pipe temperatures from -30 °C to +85 °C

CLIMATUBE® flex precut/self-adhesive

Insulation thickness	Pipe Ø	Unit
9 mm	12 mm	1 m
9 mm	15 mm	1 m
9 mm	18 mm	1 m
9 mm	22 mm	1 m
9 mm	28 mm	1 m
9 mm	35 mm	1 m

CLIMATUBE® flex self-adhesive

Insulation thickness	Pipe Ø	Unit
13 mm	12 mm	1 m
13 mm	15 mm	1 m
13 mm	18 mm	1 m
13 mm	22 mm	1 m
13 mm	28 mm	1 m
13 mm	35 mm	1 m

Accessories

- 1 PVC adhesive tape (30 mm x 33 m)
for taping the joints
